Dear Valued Partners,

We'd like to take this opportunity to thank all of you who have shown their steadfast support over the years. We know this past year wasn't easy, but nonetheless, we all were able to plow through the uncertainty and prevail. We truly appreciate your business!

As you will see, we've added a new PPE (personal protection equipment) category. We're offering a line of disposables including face masks, capes, aprons, and neck ruffles. In addition to that, we also have face shields and no-contact infrared thermometers. We realize these have become part of your everyday operations going forward so we're ready to meet your needs!

Our mannequin heads continue to outshine the competition with our textured hair mannequins Trisha and Tanya rising in popularity, and we've added Aliyah and Shanice to the collection. Our new bearded textured hair male mannequin head, Jamere has been a big hit! In addition, our new Rose Gold Barber Cases and Rose Gold Beauty Cases have also been hot-selling items!

We will continue to keep you posted on new products, specials, and provide outstanding customer service!

# GET WHAT YOU EXPECT

## **MANNEQUINS**

TRUE LEADERSHIP. HairArt has the largest selection of mannequins in the world, including our world's only elite 100% virgin European hair mannequin, Emma.

TRUE LENGTH. Our mannequin hair length is measured from top of the head to the bottom so that you get TRUE LENGTH measurement, no surprises.

# ELITE MANNEQUINS

## 100% Virgin European Hair

### The World's Best Mannequins!

100% Virgin European hair mannequin heads are ideal for hair professionals looking to train and practice hair techniques on unprocessed hair.

- 100% European hair makes it naturally soft and silky.
- Can be cut, styled, permed, bleached, color lift & deposit, and heat styled.
- Achieve true color results guaranteed.
- Natural hairline makes it ideal for cutting and styling.
- Hair strands are woven in the mannequin with cuticle facing in the same direction so the hair will not tangle.

### DIAMOND TECHNOLOGY

Diamond coated plates glisten and glide smoothly throughout hair.

### TOURMALINE TECHNOLOGY

Crushed from precious gemstones, Tourmaline crystals emit negative ions that quickly seal the cuticle layer and eliminate frizz for smoother, silkier hair.

### INFRARED TECHNOLOGY

Heat penetrates the hair shaft and straightens from the inside; providing enhanced workability, desirable, and faster results, without the negative effects of standard high heat.

### TITANIUM TECHNOLOGY

Helps remove harmful chemicals and toxins from the hair. Titanium is scratch resistant and extremely durable.

### NANO TECHNOLOGY

Tiny particles are embedded in the flat irons plates. Nano Silver inhibits bacterial growth. Nano titanium causes heat to spread more evenly and adds shine by boosting ion output from the plates.

## ORIGINAL

Trusted by stylists to deliver sensational results, the H3000 is the original "best selling" iron that inspired the collection.

### H3000 LUXE AIR HAIR DRYER

2000W POWER / 1800W ELECTRICAL USAGE

The LUXE AIR HAIRDRYER is 10X more durable than conventional professional hair dryers. The power and efficiency of this long-lasting, super-lightweight hair dryer is the newest addition to our H3000 collection. There is a significant difference in its power compared to DC and AC motor dryers. It is manufactured with a **patented brushless motor** that uses an armature instead of a carbon brush. The brushless motor uses 75% less energy than most dryers. With variable power settings, a speed dry nozzle, and a retro handle design.

#### FEATURES

- Dries Hair In Less Than 10 Minutes
- **Patented Brushless Motor**
- Weighs Under 1 pound
- 57% More Powerful Than DC Motor Dryers
- 31% More Powerful Than AC Motor Dryers
- 75% Less Energy Used

## HAIRART COLLECTION

### THE 100% BEECH WOOD HANDLE BRUSH COLLECTION

#### ROUND BRUSHES

The barrel is made with Germanium Ionic Ceramic Technology, when heated it emits far infrared rays and negative ions to break down the water molecules and help the hair dry faster.

The bristles are made with Carbon-Nano Technology. The carbon coated bristles absorb the heat and distribute evenly providing anti-static and anti-bacteria protection.

The smaller colored tips on the bristles penetrate the hair easier for a smooth and shiny finish!

#### PADDLE AND OVAL CUSHION BRUSHES

A unique combination of natural boar and nylon bristles. Perfect for styling. They provide a smooth and shiny finish! Top quality cushion pad for added comfort.

## ITECH COLLECTION

Beauty in a bottle for face, hair, and body. Converts regular tap water into energy water that is pH balanced.

Once the energy water is sprayed on hair and skin, the acidifiers can have numerous advantages. Acidifiers compact the hair's cuticle layer and create added shine. Also, acidifiers can prevent cuticle damage and detangle hair. When applied to the body, acidifiers increase the skin's ability to receive nourishment and moisture.

### FEATURES & BENEFITS

- To use, simply fill the spray bottle with regular tap water
- The water gets converted into energy water that is pH balanced at 3.5 to 5.0
- The fine mist, helps fight frizz, adds shine, and retains color
- Extends the longevity of color treated hair
- Spray on skin to soften, tone, and hydrate
